We serve over 125 riders and clients who have varying degrees of physical, mental and emotional challenges every week through equine assisted activities. Working with our 22 therapy horses, we are able to meet the needs of people with disabilities and unique challenges in our community. Wings of Hope serves people affected by a wide variety of challenges such as Autism, Cerebral Palsy, Down Syndrome, PTSD, Spina Bifida, Traumatic Brain Injury, Multiple Sclerosis and more. We offer many innovative programs including Operation Hoofbeat, a program designed specifically for the military, veterans and their families healing from the wounds of war. Wings of Hope also partners with Equine Connection Counseling to provide equine assisted counseling and play therapy for at risk youth, individuals, families and the military. We are also proud to partner with The National Multiple Sclerosis Society and area school districts.
